https://github.com/devchinedu
London,United Kingdom,

With vast experience in creating and delivering user-centric applications and solutions, I look forward to bringing my strong creative, technical, and analytical skills to your company.
Throughout my career, I have been acknowledged as a solution-focused professional with the ability to design and develop innovative applications using advanced technologies.

As a Web Developer, I have been working closely with clients from around the world, providing excellent support and services with my expertise and knowledge.

Some of my recent projects include:
1. Travel budgeting web application which is focused on finding suitable flights and hotels that matches the users budget. I used some of the latest technology such as SCSS, REACT JS, and REST API's to ensure optimal functionality, quality, and reliability.
2. I have successfully designed and delivered numerous web applications for various individuals, companies and charity organisations using technologies like, HTML, CSS, SCSS/SASS, JAVASCRIPT, BOOTSTRAP, WORDPRESS, and REACT JS.

I would greatly appreciate the opportunity to meet with you and further discuss my qualifications and your requirements in detail.

Thank you for your consideration, and I look forward to speaking with you soon.

Sincerely,
David

DAVID CHINEDU

WEB DEVELOPER

EDUCATION

Federal Polytechnic Oko
Diploma in Electrical Engineering

Bright Hope College Iyelen
Secondary and Further Education
